

# Photography Packages

## **Package A (The Stylish Book Package) £1,895**

A full day in pictures.....Approximately 400-500 individually edited, high resolution, print ready and license free photographs on an attractive, gift boxed memory stick for you to keep, reproduce and share as you please. For example, these photos would typically include the preparation from approximately 10 am on your day, all the way through to sun down, the cake cutting and first dance at the reception. We like to use 2 cameras at the same time during the ceremony. A 'second shooter' makes sure we get all the details from the back of the church/room as well as all of the action from the front. Guest shots, couple shots, wedding party shots, reception and speeches and all of the little detailed shots including your dress and shoes, the rings, the cake, overall venue shots, name places and favours etc. Your entire day in beautiful and creative photographic story form. The books of choice available in this package are of the highest quality, 30 page (15 spreads) with luxurious satin or high gloss finish, with the option of either a black or brown leather cover with embossed names on the front, or a linen cover which is available in a variety of colours which may coordinate with your wedding's colour scheme. In addition to your fabulous wedding images and stylish coffee table book, you are also invited to enjoy a bonus, super fun 'pre-wedding' photoshoot.

**Package B (The Digital Package) £1,395** This includes all of the above, but without the coffee table display book or 'pre-wedding' shoot.

## **Multi Ceremony Packages from £1,695**

These packages are usually bespoke and dependant on the duration,

number of the ceremonies and locations. The style and content will include all of Package B. Books are available as an added extra from £495.

Our pictures will be mainly shot in an informal reportage style in a mix of black & White and colour. My partner Jane will help pose you where necessary and make you and your guests feel completely at ease so that I can capture you all at your most relaxed and comfortable, creating the most perfect of pictures.

All of our packages include full post production including processing and any Photoshop editing required. You will own full rights to your photos, meaning that you can use them as you wish afterwards and your guests can also keep them without having to purchase them from our website.

In all cases, a deposit of £200 and signed T's & C's secures your wedding date.
